

Adhesive Microscope Slides

Product Overview

Premium Adhesive Microscope Slides feature a hydrophilic adhesive surface and a color-coated frosted writing area, providing excellent tissue adhesion for IHC, H&E staining, tissue microarray, and automated staining systems.

Labelling:The 20 mm color-coated frosted writing area provides a permanent labeling surface compatible with pencils, laboratory markers, and laboratory identification systems. The coating is resistant to common laboratory chemicals and stains.

Handling:Ground or beveled edge options improve handling comfort and help minimize edge chipping during routine laboratory processing. The adhesive hydrophilic surface supports secure tissue attachment throughout staining procedures.
